

Intek is a small minority woman-owned business, created in 1976 with the goal of integrating advanced technologies to solve complex measurement problems. Intek has built a reputation for highly accurate and reliable flow measurement systems capable of operating at low flow rates and compatible with most industrial chemicals and gases. Intek's instruments and services help customers in a wide range of industries, including Power Generation, Nuclear, Chemical/Petrochemical, Pulp & Paper, Semiconductor, Food & Beverage, Water/Wastewater, Biotech/Pharmaceutical, and Oil & Gas. Our experience and engineering skills allow us to design custom flow solutions for customers with unique flow specifications. Intek is committed to maintaining a high level of technical excellence and customer service. We are active in supplying flow meters for the nuclear industry measuring fluids that expose sensors to over 100 Mrad (lifetime). In addition, the company has manufactured equipment for the space program meeting the rigorous requirements for NASA manned spacecraft.

**ISO 9001:2015
Certified**

Cage Code 59936
DUNS 070549787

Customers Include

- Savannah River Site
- Sandia National Laboratory
- B&W Conversion Services
- Bechtel Parsons Blue Grass
- Lockheed Martin
- NASA

Core Competencies

- Precision Flow and Temperature Measuring Instrumentation
- Low Flow Meters for Liquid and Gas
- Duct Flow Meters
- Flow and Level Switches
- Custom Process Measurements
- Precision Manufacturing of Electronic Systems
- System Integration and Testing
- Power Plant Condenser Monitoring and Optimization

NAICS CODES:

334513 Instruments and Related Products Manufacturing for Measuring, Displaying, and Controlling Industrial Process Variables
541330 Engineering Services
541712 Research and Development in the Physical, Engineering and Life Sciences

PSC CODES:

AD24 R&D—Defense Other: Services (Engineering Development)
4420 Heat Exchangers and Steam Condensers
6680 Liquid and Gas Flow
6685 Pressure, Temperature and Humidity Measuring Instruments

Differentiators

- Intek was one of two companies to receive Boeing's Exceptional Company Performance Award in 1998.
- Experience in developing Custom Flow Solutions; often the only manufacturer able to meet special application requirements.
- Our precision flow measuring instrumentation design features no moving parts, straight-through design, wide rangeability, exceptional chemical compatibility and maintenance free operation.
- Expertise in thermal management and control circuit design.
- Major contributions to power plant efficiency and trouble shooting diagnostics.
